

Hey Beautiful Soul,

I'm Andréa Whitaker

After starting this spiritual journey, I realized that I was psychic all along. Now I live a spiritual, magical life. I have since dedicated my time to bringing comfort after a very traumatic time. I love that I and spirit are able to bring back a piece of someone they lost after one of the toughest times in our lives. I am blessed to be able to do this work each and every day. I live in the south, so it has definitely been a journey, but I give GOD thanks every single day.

Hi! My name is Nakia Burke,

I am an Evidential Medium, Reiki Practitioner and Crystal Healer that has dedicated my life thus far to helping children and their families. For the past twenty years I have advocated for families and helped teach parents to better communicate with their toddlers with language delays. I feel my job has deeply shaped who I am today, teaching me how to listen beyond words, hold space with compassion, and meet people exactly where they are-all of which I bring into my work as a medium. My intent as an Evidential Medium is to bring messages of love, healing, comfort, and reassurance that although our loved ones have passed on, they are still present and with us always.
